Christmas
at GAYLORD HOTELS®

Hallmark Channel's DIY Ice Globe Light

Supplies Needed:

- Punching bag balloon
- Shot glass
- Metal Bowl
- Battery-powered tea light

Directions:

1. Remove the rubber band off the end of a punching bag balloon; tie that same end of the balloon with the rubber band.
2. Hook the other end of the balloon onto a faucet and fill it with water.
3. Place a freezable/metal round bowl under the balloon while filling it with water.
4. Once it is filled, move it to a table, take the shot glass and place it in the balloon. Tie the end once the shot glass is fully in the balloon.
5. Put the balloon in the freezer overnight.
6. Take the balloon out, remove the shot glass and peel the balloon wrapper off of the ice.
7. Insert your tea light and enjoy!
